YOUR JOB

"Whosoever shall compel thee to go a mile, go with him twain."—From the Bible.

With this great truth Christ sought to teach man the way out of bondage. He knew that the truth would set them free. But through all the centuries man has steadfastly refused to learn that when we are called upon to perform a certain task, we can lift our bondage by doing more than is expected of us.

Hating your job makes you a slave to it. Liking your job and working at it with a song in your heart is the sure road to happiness and success. No man is bound to advance very far in life who looks upon his employer as master of the slave pen in which he is one of the slaves. No matter how mean the task, there is nobility in doing it well. You applaud the act of the trained seals in the circus, yet did you ever see one of them do more than was expected in the act. They will beat the drum, rattle the cymbals and toss hats about the ring, but never a bit more. How many of us are like trained seals, never doing anything we can avoid, rushing away from our work the moment the whistle sounds, and wondering in our weak way why promotion and successful independence never comes.

Make your job a real job. Do twice what is expected of you and promotion will follow as certain as night. Don't loaf, don't continually find fault, and by all means don't be a trained seal.

While we are getting the government out of business it will not do any harm to follow the lead to the extent at least of stopping the Post Office Department from competing with the local printer in the matter of printed addresses on the stamped envelopes. For all of the careful figuring of the government efficiency experts which apparently show that it costs next to nothing to do this printing, those who have had experience in watching government operations know this is not the truth. The little fellow has a hard time anyway, and he should not be obliged to face his own government as a competitor.

SPREADING COMMUNISM

In spite of the fact that the Russian working classes are undergoing privations and actual misery almost beyond the power of description, the Soviet government of that unlucky nation is engaged in spending millions of dollars for the purpose of spreading communistic propaganda throughout the civilized world. And notwithstanding the heart-breaking picture Russia presents under Soviet rule, it is remarkable how many converts they are able to muster to their cause, especially in those European countries where financial and industrial conditions are still in a chaotic state.

Here in the United States, with the greatest general prosperity we have ever enjoyed, it is proving more difficult to the other day news dispatches told of the Baltimore police being forced to disperse a mob of thousands who gathered to hear a disciple of the "red" government rail against governmental oppression. Right now there is little to fear from the spreading of communism in this country, but let us enter a period of depression and instantly converts to the Soviet cause would spring up like mushrooms all over the nation. A good plan to guard against the possibility of such a situation is in the teaching of the constitution and its guarantee of perpetual and equal freedom of the masses.

THE BENEFIT OF LOWER TAXES

The stupendous growth of taxation in recent years is seen in the statement that the cost of government up until three years ago was just twice what it was a little over a decade ago. For every dollar raised by taxation Uncle Sam gets a little over thirty-nine cents, and the problem now confronting Congress is to lower this cost to the taxpayer, the work being undertaken without regards to party lines. So far splendid progress is being made, our taxes now taking about three days per month and not the one day per week as it was three years ago. The example being set by the Federal government should be followed by the state, municipal and county officials, who have to deal with the remaining sixty cents of the taxpayer's dollar. Rigid economy in national, state and local government will result in releasing millions of dollars for industrial enterprises which will bring about tremendous public benefit. The road to lower taxation is the great highway to increased wealth and prosperity for the nation.

PUBLICITY FEATURE KILLED

Congress did a wise thing when it repealed the publicity clause of the income tax law. The two-year experiment was enough to reveal it as being reprehensible, if not actually dangerous, serving no purpose other than to produce a crowd of curiosity seekers bent on obtaining knowledge to be used against business rivals or people upon whom they would vent their spleen. The law was passed on the presumption that it would prevent tax evasion, but the two-year trial wiped this belief out to the satisfaction of every unbiased mind. The idea will not be revived, at least during the life of the present generation.

DON'T CASH CHECKS

"Never cash a check for a stranger," is the timely warning that is being broadcast by the Retail Credit Men's Association throughout Michigan and Ohio, two states that have been literally sown with spurious paper during the past two years. The crooks engaged in the trade of passing forged checks are clever, to say the least. Outfitted with safety paper, check writing machines and rubber stamps of prominent firms, they are able to produce checks so close in resemblance to the genuine that not even bankers are able to detect them until they have received advice from the firms on which the checks are supposedly drawn. Local merchants are warned to look out for this clever tribe. No sooner is one method of entrapping the unwary uncovered before they come forth with entirely new scheme to gain the confidence of their victims. Far better to lose a small sale occasionally by refusing to cash checks for strangers, than to wake up some morning and discover you have been added to their long list of victims.

TIME TO BEWARE

The opening of the tourist season will soon be here and with it the enthusiasm that is always evident among the business men of the summer section for fear they are not doing all in their power to bring in the visitors. Hard on the heels of this enthusiasm will come a horde of solicitors urging the expenditure of money for worthless advertising schemes. If a hard and fast rule is adopted by all business men not to invest in any of these fly-by-night propositions until approved by a committee appointed to investigate the matter, they will save themselves considerable money.

WOE IS MAN, INDEED

Woe unto the men of Athens, who must enforce a Greek law, fixing the minimum length of skirts at seven and one-half inches below the knees, for all women 14 years of age or more. Husbands must supervise the apparel of their wives and fathers their daughters.

Farm Bureau Notes

R. D. BAILEY

County Agricultural Agent

Seed, Lime and Fertilizer

A lot could be said on this subject. There are many whole books, and many bulletins devoted to the very important subject of fertility and fertilizers.

Plain, Pointed, Practical.

However, what we say in these brief notes will be right to the point, plain, pointed and practical, and suited to our conditions. You will not need to make any excuses or allowances, just use this spring on your farm what is here said:

Practices What He Preaches.

The writer has long practiced on "Groveland Farm," his own farm, all, and more, that he asks you to do. He has been a harder master on himself than on others, for he knows there are many who would not stand for exacting requirements.

Don't Worry About Surplus.

There occasionally drifts into the county agent's office the remark of someone who wants to cover up or excuse his shirtness: "What's the use of raising bigger crops. Can't sell what we have now?"

Those Potatoes.

Some seem to think that the bottom has fallen out of raising it they cannot put in the whole seasons' efforts on a few acres of potatoes and find sale in Grayling for them, all at a high price, while they neglect to raise plenty of hay, grain and roots for cows, horses, hens and pigs.

These people, after they have shot in the season on too many potatoes, find potatoes low more often than high. They do not get the income from potatoes nor from the cows, nor from the poultry, because they have neglected to raise root for the latter dependable stock. They often use up all they can rake and scrape in hauling hay home all winter for what little stock they do keep, because they neglected to raise roughage while monkeying with potatoes which are high about one year in six and never dependable. Potatoes do not furnish manure piles on our farms.

How To Do It.

(Corn)

My best suggestion for us here is: Put onto your land every shovelful of manure from horse stable, cow stable, pig pen, barnyard, hen house and toilet. Plow it in early in the spring, as early plowing helps save moisture. Drill it, disc it, drag it. Apply three sacks acid phosphate (fertilizer) per acre. Drag some more. Plant to corn with a germination guarantee to be 95 per cent or more.

Cultivate this corn (before it is up) by the marks. Drag once with a spring-tooth, scratch light, before up. Drag twice with spring-tooth, teeth slanted back, after up. Cultivate SHALLOW twice in a row, with a walking cultivator. Do close, SHALLOW work.

Keep this corn ground spotlessly clean as a basis for next year's oat and legume ground.

(Oats)

Supposing that you did as above with last year's corn. The county agent advised it hard enough. But, with nearly half the farmers in the county not taking the county paper in which these notes appear, what progress can you expect?

Well, Supposing!

Well, supposing that you did as suggested with the corn last year.

Disc last year's corn ground (not plow) as early as you dare work it. This saves moisture. Apply two or more tons of lime per acre. Drag in. Put on two sacks acid phosphate per acre. Drag in. Drill in one bushel and a peck of best, re-cleaned Wolverine oats per acre, with ten pounds best white blossom, certified, scarified, inoculated, northern grown, per acre, or the oats with ten pounds of northern grown, certified, scarified, re-cleaned, inoculated Grimm alfalfa seed per acre.

Yes, Lots of Trimmings.

That's the way to get satisfactory results—lime, acid phosphate, with the seed inoculated, northern grown, scarified, certified and re-cleaned.

Don't Run After Cheap Seed.

Right Way To Raise Your Potatoes. Of course, an acre of well-grown, high yielding potatoes is all right, with the emphasis on an acre of very early ones for the early market, which exists here, on account of tourists, and the military encampment.

To Get Them.

Manure a legume seed in the fall. Plow it late in the fall. Manure it again early in the spring and double disc this manure in. Apply four sacks acid phosphate per acre. Drag in. Use hand-selected, hill-selected, seed, soaked in corrosive sublimate solution. Cultivate by the marks.

Drag before up. Drag several times after up. Cultivate shallow, twice in a row. Keep this potato ground strictly clean for you are going to raise oats and alfalfa or sweet clover there next year (after you lime and apply two sacks acid phosphate per acre).

Need It.

Practically all our soils in this region need acid phosphate, and need it badly. Slap it on. It does not cost much.

Those who take it from the car door will get it at \$26.40 a ton which is actual cost. Half ton, same rate. A few odd bags from car door, \$1.75 a bag. 125 pounds per bag, 16 bags per ton.

Those who trail along late and do not take it from car door, but want it after it has been unloaded, and kept insured in a warehouse for

awhile, while interest on investment rolls up, will have to pay \$2.00 a bag. It's cheap at that. It's far cheaper than it would be if there were not a co-operative marketing association, and a county agent in the county.

Do We Get That Car Load Or Not?

These prices prevail if we get the phosphate in car lots. The smallest car is fifteen tons. We used twenty tons last year. We should use three cars this year—one at Frederic, one at Grayling, and one at Roscommon.

Use of acid phosphate pays; yet, the county agent has to holler his head off to get orders in for fifteen tons.

What will other counties think of us when they see the effort the county agent has to get together a fifteen ton car!

Come on boys! Let's have your orders now. Leave them with the county agent. He will see that they get into the right hands.

Who Takes The Most?

It will be interesting to see which township buys the most fertilizer. It will be interesting to see which farmer buys the most.

Your Money Back.

Using acid phosphate, in normal seasons, you get your money back in increased oat straw. You get it back again in increased weight of grain. You get it back in better growth of the legume sowed with the oats.

It gives you bigger manure piles.

It gives you bigger corn crops.

It gives you bigger potato crops.

Save Up and Squeeze Out.

It's worth while to save up and to haul wood to town in order to squeeze out money for a ton of phosphate.

Show 'em what you can do this year.

Education

Each one of us then who has an education, school or college, has obtained something from the community at large for which he or she has not paid. No self-respecting man or woman is content to rest permanently under such an obligation where the state has bestowed education. The man who accepts it must be content to accept it merely as a charity, unless he returns it to the state in full in the shape of good citizenship.—Theodore Roosevelt.

A Big Event!

What? The tournament Where? At the school house, Don't miss it!

Nine teams will attend the annual district tournament here March 11 and 12.

The last basketball game of the season was played at Frederic between the high school teams Friday. The boys played off a score at the last winning by two points. Our girls second team is pretty good but Frederic offered stiff opposition. Remember, it was our second team against Frederic's first team.

Friday afternoon splendid talk were given to the members of the assembly room. Mrs. W. S. Colegrove speaking to the girls and Mr. Colegrove to the boys.

The children in the grades are working on an opera to be given March 19th.

Report cards came out last week, we wonder why there were so many sorrowful faces.

Country Cousin—"I suppose the motto of you women in New York is 'at drink and be merry'."

City Cousin—"My dear, it's eat wink and be wary."

Dedicated to Nels Johnson: Afraid of tigers, squirrels, snarling dogs, cats, elephants, roaring lions, but I am afraid of girls.

A wise old owl sat in an oak, The more he saw, the less he spoke, The less he spoke, the more he heard. Now, why can't Freshies be like this bird?

Second Grade

Many of our little people are absent on account of measles. George Hanson has been neither absent nor tardy this year. He is trying to have a clear record for the whole year.

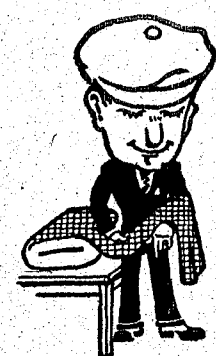

The A and B classes are having a race for most number of gold stars on a tooth chart. Everyone who brushes his teeth twice a day gets a star. The losing side will give the winning side a party during the spring vacation.

Third Grade

The third grade visited Mr. Schram's blacksmith shop Monday. Mr. Schram showed them many interesting things. He put a shoe on horse while they watched.

Sixth Grade

Reginald Sheehy is back to school again. We are dramatizing the story of Peter Pan in language class. We have started to study decimal in Arithmetic.

Ford

For the First Time
\$500 Buys a Closed Car

If you plan to spend over \$500 F. O. B. Factory for an automobile, you can get the year-round comfort and convenience of a Ford closed car.

The price advantage which the public enjoys in purchasing Ford cars is the result of volume production. In 1920, when the Ford Motor Company was producing approximately only a million cars a year, the Ford Touring Car sold for \$575. Today, with production on the basis of nearly two million cars a year, the Tudor Sedan, a high quality steel closed car, can be purchased for \$520—\$55 less than the Touring Car sold for six years ago. Open car prices are correspondingly low.

While this program of price reduction has been carried on, important refinements and improvements have been made in Ford cars. The latest improvements include new and attractive body lines—a lower center of gravity, closed cars in color, all-steel bodies, new brakes and new style fenders.

However, the basic features of Ford design have not been changed. Three point motor suspension, planetary transmission, dual ignition system, torque tube drive, multiple disc-in-oil clutch, splash lubrication, thermo-siphon cooling system—outstanding features of automobile design—have all been retained, regardless of cost.

March has given us more snow than all the other months combined, is the claim of some of our weather debaters. At least we have had a lot of it during the past week. At the school auditorium on Friday, March 19th, under direction of Miss Marion Salting, teacher of music. This will be open to the public and everyone is cordially invited. There will be a nominal charge of 10 cents, to cover cost of suits. The operetta will begin at 8:00 P. M.

We are deeply grieved over the untimely death of our old friend Hal VanAkin, of South Bend, Ind., who took his own life at his summer cottage at Chapin Lake, near Berrien Springs, Michigan last week Tuesday. Hal was an artist violinist, conducted a conservatory of music in South Bend, and was a very excellent gentleman. While we appreciated his wonderful skill as a musician, it is himself personally whom we miss. While we saw but little of each other, there was still a close bond of friendship that has lasted over a score of years. Grief over the loss of his father five years ago last Tuesday, and failing health are given as reasons for taking his own life.

It is expected that the Rev. Carl Nielsen of Cordova, Nebraska, will be in Grayling to hold services at the Danish Lutheran Church Sunday morning, due to the absence of Rev. Kjolhede. Rev. Nielsen is now touring the country by auto, and expects to arrive in Detroit Friday, and will come to Grayling by rail Sunday afternoon and evening there will be a social gathering at Danebod Hall in honor of Rev. Nielsen, to which all Scandinavians are invited. Ladies of the congregation are requested to bring cake or sandwiches. In the event that Rev. Nielsen cannot come to Grayling Sunday, he will undoubtedly be here Monday or Tuesday on his lecture tour.

A series of benefits are being given for Mercy hospital, the first one having been a card party at Shoppington Inn last February 22nd. This was a fine success and netted a profit of about \$60.00. The next one will be March 17th—St. Patrick's day, when there will be a benefit dance at the school gym. Others will follow soon after. The need of such financial assistance is very well known to a few who have been privileged to inspect the hospital accounts, and the condition is calling for prompt and urgent action. The hospital has been running light for many months with but a very few patients and expenses do not seem to diminish accordingly. It has brought on a financial condition that needs immediate assistance. Grayling is fortunate in having such a fine and well equipped hospital, and it behooves us to aid in maintaining it whenever necessary. Mr. T. Hanson, who is acting as chairman of finance, says that there are many accounts outstanding that should be paid. Some have already paid some of their account, but there are others who, he says, could and should do better. This money has been earned by services rendered at times of need, and every effort should be made to pay as soon as possible, especially at this critical financial period.

A few friends enjoyed the hospitality of C. B. Olivarius Thursday evening. Mr. Olivarius has many interesting pictures of America as well as other countries which his guests are always interested in, as well as many very fine records on the Victrola which are very enjoyable.

The young people of the Danish Lutheran Church held their regular meeting at the Danebod Hall on Thursday evening. After readings by Rev. Kjolhede, lunch was served by Mrs. Peter Madison and Mrs. Peter Peterson. Later in the evening games and folk dances were enjoyed.

A. L. Foster of Gladstone was in the city Friday of last week looking after his business interests and calling on old friends. He was enroute to Bay City to accompany Mrs. Foster home, the latter, who had been in a hospital in that city for several weeks, having submitted to an operation.

Edward A. Gaffney, long a resident of Roscommon county, passed away at his home in that village at noon Saturday after a brief illness. Local physicians had been called to his bedside. The funeral was held Tuesday morning with services at St. Michael's church, Rev. Fr. Culligan of this city officiating.

Last Friday Mrs. Rhoda Everett sold her home on Chestnut street to Mr. and Mrs. Holger Hanson, the deal being made that day. This is a desirable piece of property and in a fine location. Mrs. Everett will visit in Grayling for some time before going to Indiana, where her daughter Mrs. Claude Carver and husband are moving from Lincoln, Nebraska.

Miss Ruth Lovely returned Thursday from Roscommon where she had been visiting friends for several days. Don't miss the bake sale at Mac & Gidley's drug store Saturday to be given by the ladies of St. Mary's church.

(For Men Only) Freeman's oxfords at \$5.00 and \$5.50 are without a doubt the biggest shoe value of the day. See them at Olson's.

Victor Brown and daughter Lorlene Audrey returned Friday afternoon from East Jordan where they had been guests of the former's sister Mrs. Ed. Strehl and family for several days.

About twenty ladies and gentlemen were entertained informally by Dr. and Mrs. C. R. Keyport Saturday evening. The affair was given for Miss Ann Walton who has been a guest in the Keyport home, but left that night for her home in Detroit.

The regular meeting of St. Mary's Altar Society will be postponed from Thursday, March 18 to a week later on March 25th. Mrs. Walter Nadeau and Mrs. Louis Kessler will be the hostesses and the meeting will be held at the home of Mrs. Nadeau.

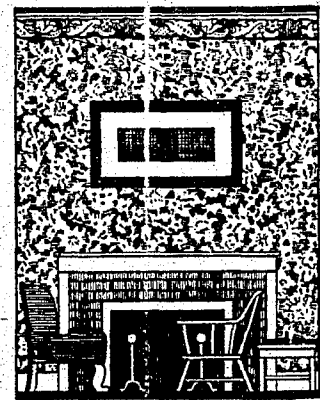

Word was received by Grayling relatives Tuesday of the sudden death that day of Mr. Frank Barnard of Flint from heart trouble. The Barnard family were former residents of Grayling, and Mrs. Barnard will be remembered as Miss Mary Johnson, who is a niece of Mrs. Lars Rasmussen and Mr. R. Hanson.

A few thousand dollars should repair our waterworks system so that 70 pounds of pressure may be carried at all times and 90 pounds fire pressure. And a few hundred dollars should provide new wells of fresh, clear water. Such improvement should cost but little and would save an expensive bond issue with its money eating interest which would about equal the principal. We believe that some kind of satisfactory arrangement can be made between the village and the company to the mutual satisfaction of all. And then after that is happily disposed of, let's pave main street. Why not? This should have been done twenty years ago, and we would have saved a lot of money by doing so, and have had something to show for it. It's not too late now.

Going! Going! Gone! That is what is happening to the New Russell hotel. A couple weeks ago workmen started dismantling the structure, and by tonight there will be left only about the spot where it stood. This historic old structure has played its part in the development of Grayling and had to be removed to make way for things that are more needed. Just as soon as the weather will permit Hans R. Nelson, the purchaser of the corner, will begin the construction of an auto service station. Part of the timber, windows, doors and other parts from the old building have been hauled to the Danish landing where they will be used in the construction of summer homes. Part of the lumber was left on the lot for use in the new building that is to be erected there. The old heating plant, including the boiler, pipes and radiators were purchased by Frank Deckrow, plumber, and re-sold to T. E. Douglas who will have them installed in his hotel at Lovells.

Friday evening about 8:00 o'clock the fire department was called out in response to an alarm from Dist. No. 7, and found the Fred Moggo home ablaze. At the time of the fire Mrs. Moggo and one child were attending services at the Michelson Memorial church, two other children being at the home of a neighbor during the mother's absence. Practically all of the contents of the home were saved, although the house, which was owned by Wanner Jorgenson, is a total loss. Origin of the fire is unknown.

That the ladies who are taking the courses in home hygiene and care of the sick are deriving a whole lot of good sound information, and much benefit, is shown by the enthusiasm in which they are attending the weekly classes. Mrs. Squires, under whose direction the course is being carried out is to be commended for the interest she is showing not only in this cause but also for the work she is doing in the interest of health in this county. The ladies are unanimous in their opinions that much good will come from this series of lessons this winter.

Both republican and democratic parties will hold their caucus for the nomination of candidates for township offices next Monday night, March 15. The republicans will hold their meeting at the court house while the democratic party will occupy the town hall. Both meetings will begin at 7:30 p. m. The offices to be filled are supervisor, clerk, treasurer, highway commissioner, justice of the peace, member of board of review, overseers of highways, districts numbers 1 and 2, and four constables. These are important offices and good attendances at each meeting should be had.

Parties recently came into town and had their car pretty well stocked with what appeared to be, and probably was, booze. It is reported that there is a new law that prohibits an officer from searching an auto without a search warrant and that such a warrant cannot be issued without evidence has been had that owners of such cars have been violating the law. In this case it appears that all the sheriff could do was to peep into the car and take a sniff but was unable to molest the parties, and after browsing about town a few hours, probably looking for customers, they went on their way to other fields of operation.

The Grayling Greenhouses have been pretty busy this week. On Tuesday they put up a pillow, two wreaths and six sprays for Flint and Gaylord parties and on Wednesday 16 sprays were made up for Gaylord. These are in addition to the large daily business this place is enjoying. Under the management of Mr. R. Peterson the greenhouses are experiencing a thriving business. New cement benches are being built and new stock added as rapidly as circumstances will permit, and two new buildings are to be built this summer. Mr. Peterson is a very able florist and knows just what the people want and how to put it up for them, and his efforts are very much appreciated by the patrons of the place.

Game Warden John Speck reports that there have been a number of dogs running deer in the Military reservation and that right now there is a large buck deer dying at the George Skingley place, where it was taken by game wardens, that was run down by two black and tan hounds. There are many dogs in Crawford county that are not wearing license tags and a wholesale disposal ought to be made to rid the community of these, and thus help to protect the wild life, such as deer and rabbits that are common

victims of such dogs. Owners, too, should be made to keep their dogs out of the woods, or dispose of them.

"We have an opening in Crawford, Kalkaska, Otsego and Antrim counties for a reliable man with car to handle an established business of 1500 customers. This is an exceptional opportunity for a local man who wishes to connect with a large organization that pays \$1800 a year to start. Write Fuller Brush Co., Saginaw, Michigan, giving references and past employment."

MAY RAISE PRICES ON FARM PRODUCTS

Leaders Offer New Plan; Ask Government for Loan of \$250,000,000

Washington—Legislative action to meet the demands of agriculture by providing means of raising the prices of farm products in the domestic markets of the United States, has taken definite form. At a hearing by the house committee on agriculture, corn belt delegates and representatives of leading farm organizations agreed on the terms of a bill to control surplus farm products and effect price stabilization. The bill, drawn up by the Des Moines corn belt committee of twenty-two, was submitted to the house committee for the consideration of congress.

Although in the main the provisions of the bill are along the lines laid down in the Dickinson measure, it goes much further. It provides that the government shall advance \$250,000,000, or as much more as may be required for a "revolving fund" to operate the price-raising machinery. Reimbursement of the government is provided for in money to be contributed by the producers.

The plan of operation proposes that a farm board appointed by the President shall cause the price of farm products to be bid up to levels which will mean reasonable profits for the producers. Provision is made that any losses resulting from the purchase of surpluses in the home market at the bid-up prices, and sale abroad at lower world prices, be met from funds provided by the collection of "equalization fees" from the producers. In the case of live stock prices, congress may be asked to make the packing concerns public utilities, or to stipulate that the charges for the services they perform shall be regulated by the board so as to give a reasonable profit only. This provision is similar to the power of the Interstate Commerce commission, which allows railroads to make rates yielding average profits of 5% per cent.

The bill calls for the formation of a federal farm advisory council of five representatives. In each of the twelve federal land bank districts, the representatives to be elected by farm service organizations. The body, which is to serve without remuneration, is empowered to nominate three persons from each land bank district, from which the President is to choose one each to form the federal farm board of twelve members. The board's responsibility is to operate the price-raising machinery through farmers' co-operative organizations or other agencies.

WASHINGTON BRIEFS

The year 1925 was the most prosperous the Philippine government has experienced since the slump that followed the ending of the World war. It is so officially stated that when the books are balanced the revenues will show a surplus over expenditures of approximately \$3,500,000.

The condition of Gen. John J. Pershing, after two weeks' treatment by medical and dental specialists in Walter Reed hospital, has returned to normal.

The Navajo Indians of Arizona must pay half the cost of a \$200,000 bridge across the Colorado river near Lee ferry, the senate decided in final approving the conference report on the \$425,000,000 deficiency bill.

Granting of honorable discharges to soldiers who enlisted during the World war and who were dismissed because of misrepresentation of age, is provided in a bill passed by the house.

President Coolidge feels that it is up to congress to determine whether the "lame duck" session immediately after each congressional election should be abolished, and if a resolution proposing a constitutional amendment to this effect is passed by both houses he will approve it.

Two U. S. Seaplanes to Make Spin of 7,000 Miles

San Diego, Cal.—The longest flight ever attempted by American navy aircraft, from Philadelphia to San Diego by way of Cuba and the Panama canal, with stops at Central American and Mexican ports, is to be made this summer, according to word received here. The flight will be made by the navy's two PN-10 patrol seaplanes now awaiting completion at the naval aircraft factory at Philadelphia. The distance is about 7,000 miles.

"COLD IN THE HEAD"

Is an acute attack of Nasal Catarrh. Those subject to frequent "colds" are generally in a "run down" condition. HALL'S CATARRH MEDICINE is a treatment consisting of an Ointment to be used locally, and a Tonic, which acts quickly through the Blood on the Mucous Surfaces, building up the System, and making you less liable to "colds." Sold by druggists for over 40 Years F. J. Cheney & Co., Toledo, O.
